(Website is bookmarked on class website)

This website shows various organisms commonly found in ponds, called protists. Click on 5 of them to learn more about each one. Use the information to complete the following table.

Name of Organism	Habitat (where to find them)	Size Range	How does it get food?	One interesting fact

**Question:**

Have you ever been swimming in a lake or pond and accidentally swallowed some water?

What are your thoughts on the possibility of having ingested some of these creatures?
