

# Crazy Cases of Animal & Plant Evolution

Name \_\_\_\_\_

Directions:

*Using a Chromebook, research interesting cases of animal & plant adaptations. For each species, explain the adaptation AND explain how the adaptation helps the organism survive. **You need to research AT LEAST one plant!***

1. Name of Species:

Adaptation #1:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	
Adaptation #2:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	

2. Name of Species:

Adaptation #1:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	
Adaptation #2:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	

3. Name of Species:

Adaptation #1:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	
Adaptation #2:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	

4. Name of Species:

Adaptation #1:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	
Adaptation #2:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	

5. Name of Species:

Adaptation #1:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	
Adaptation #2:	Is this Behavioral or Structural? (circle one)
How this adaptation helps it survive:	

\*extra credit if you send me a cool video of one of your examples\* [kerry.moody@washk12.org](mailto:kerry.moody@washk12.org)
